RE: Monroe County Jail WWTP

Dear Bob,

After visiting the site at the jail Wednesday, I do not foresee any problems in removing the five tanks located at the treatment plant. The job should take approximately four days including the removal of the tanks and cleanup of the jobsite. After the removal, the only thing left will be the five holes the tanks sat in. Rainwater from the tanks will be pumped back into the holes because the tanks have been chlorinated.

A large flat rock located at the corner of the jail as you leave the property, will have to be removed. The trucks will have to run on the grass to make the swing.

Due to the high cost of moving the tanks, I estimate the total job will cost Aqua Waste Repairs, Inc. approximately \$25,000.00. There will be no cost to the County.

Upon acceptance of the terms of this letter, please notify me in writing how soon we can schedule the moving of the tanks.

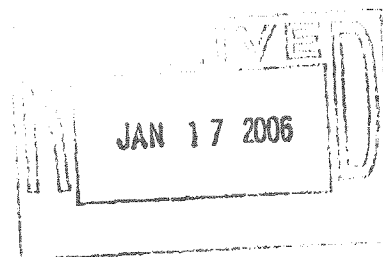

Thank you very much.

Dear Mr. Foreman:

National Salvage & Service Corporation is interested in removing the five tanks from your facility. We have the trained personnel that will safely remove the tanks. The polyurethane coating poses particular hazards for torch cutting. The project is priced as follows:

• First Tank	\$14,200
• Each of the Additional Tank Four Tanks (\$9,400 X 4)	<u>\$37,600</u>
	\$51,800
➤ Discount if all 5 tanks can be removed simultaneously	<u>- 5,000</u>
Total	\$46,800

National is currently in the final stages of removing the Incinerator for the City of Key West. We will be demobilizing within one week. Please let me know your decision at your earliest convenience, so we may plan accordingly. Thank you for the opportunity to quote and perform work for Monroe County.

Sincerely,

Curtis C. Schopp
